

Senior Frontend Developer

We're looking for **Senior Frontend Developers** (4+ years experience) for our development team who will take responsibility at design & development and planning of our products.

Candidates should have a solid understanding of the following:

- AngularJS (Angular 1), React.js
- Gulp, Grunt, Bower and/or webpack
- CoffeeScript, ES6
- Bootstrap

Any of the following items are a big plus:

- UI / UX concepts
- Unit Testing & Test Driven Development
- git and/or gitflow

Non-technical skills and expertise that we look for:

- No military service obligation for male candidates
- Can work independently as well as good team player

Please apply with:

- Your github account
- Code snippets which represent your coding style
- Brief description of your skills, passions and work style
- Link to your blog or other weekend projects/apps you have built

Job Description:

We are seeking a team member to join our development team as a **Senior Frontend Developer** to work on company R&D office (Libadiye/Üsküdar).
